

Fasira Daramana

UX/UI Design Intern

I am interested in UX/UI design because it lets me improve how people interact with technology and make their experiences better. I am looking for **January to April 2025 internships**. Where I can use my skills, learn from professionals, and work on exciting projects.

Education

Mae Far Luang University, Chiang Rai (August 2021 - Present)

Bachelor's Degree in Software Engineering, GPAX: 3.54 Expected Graduation Date: May, 2025

Project

- **Find Café Application** (February 2023)

Tools: Figma, VS code

- This group project is a part of the Mobile Application Development course study. I work as a UX/UI designer and Front-end developer on the Flutter framework using Dart. The purpose of the app is to help users locate cafés around them in Chiang Rai and this app will show a list and photos of the menu, locations, and contacts.

- **Novel Verse Application** (November 2023)

Tools: Figma

- This UX/UI design project was developed as an independent project for the Platform Development course study. This app will display a list of Novels, Anime and Books so that users can enjoy reading them.

- **Puangun Application** (November 2023 - February 2024)

Tools: Figma

- This project was a part-time job for MFU CITS and It was the largest project I had worked on as a UX/UI designer while in University. The project is the vision of Grand Challenges Canada, aims to help Indigenous youth struggling with mental health issues using an app to consult theirs health. **Now available on App Store and Google Play Store**
